PROFESSIONAL SUMMARY

Final-year AI & ML Engineering student with hands-on internship experience in AI automation and data analytics. Published researcher with 4 papers and a Best Paper Award, specialising in deep learning for cybersecurity. Builds end-to-end solutions — from ML models and REST APIs to AI-powered automation workflows. Actively seeking a full-time role in AI/ML, full-stack development, or automation engineering.

TECHNICAL SKILLS

Languages	Python, JavaScript, Java, C, Node.js
Frontend	React.js, HTML5, CSS3, Tailwind CSS, Figma (UI/UX & Wireframing)
Backend	Node.js, Express.js, FastAPI, REST APIs
AI / ML	TensorFlow, Keras, Scikit-learn, Pandas, NumPy, LangChain
Automation	n8n, Make, Zapier, AI Agent Development, Prompt Engineering
Cloud & Tools	AWS, Docker, Git, GitHub, MySQL, MongoDB

EXPERIENCE

AI & Automation Intern — ShotZooApr 2026 – Present

- Built end-to-end AI automation workflows using n8n and Make, integrating LLM APIs with custom business logic.
- Collaborated with cross-functional teams to design and deploy automation systems that improved operational efficiency.

Data Analyst Intern — Mandalo TechJul 2025 – Aug 2025

- Cleaned and visualised datasets using Python (Pandas, Matplotlib)
- Built KPI dashboards to support data-driven decisions.

RESEARCH PUBLICATIONS

Hybrid Deep Learning Anomaly Detection SystemMar 2025 | Best Paper Award

Developed a hybrid CNN-LSTM model achieving 98% detection accuracy for identifying network anomalies and suspicious activities.

AI-Based Fake ID & Image Forgery DetectionJun 2025

Built a deep learning pipeline using image forensics and classification models to detect forged identity documents and manipulated images.

Securing the Cloud: Deep Learning + ORCA OptimizationSep 2025

Proposed an intelligent cloud security framework combining DL-based threat classification with ORCA metaheuristic optimisation for adaptive threat detection.

Multi-Model Deep Learning for Advanced Cybersecurity Threat DetectionApr 2026

Designed a CNN / RNN / Transformer ensemble to detect and classify advanced cyber threats with improved accuracy across real-time network traffic data.

EDUCATION

B.E. Computer Science – Artificial Intelligence & Machine LearningExpected 2027

Sriram Engineering College | CGPA: 8.33 / 10.0

CERTIFICATIONS

- NPTEL Ethical Hacking – IIT Kharagpur (2024)
- NPTEL Cloud Computing – IIT Kharagpur (2025)
- Google AI Essentials – Coursera (2025)
- Microsoft Data Analysis – LinkedIn Learning (2025)
